940383	Furniture of rattan

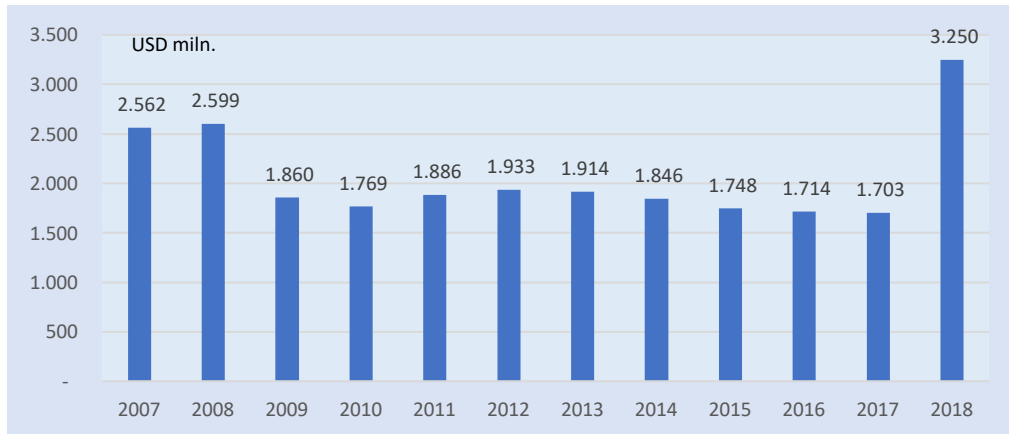

International trade of bamboo and rattan 2018

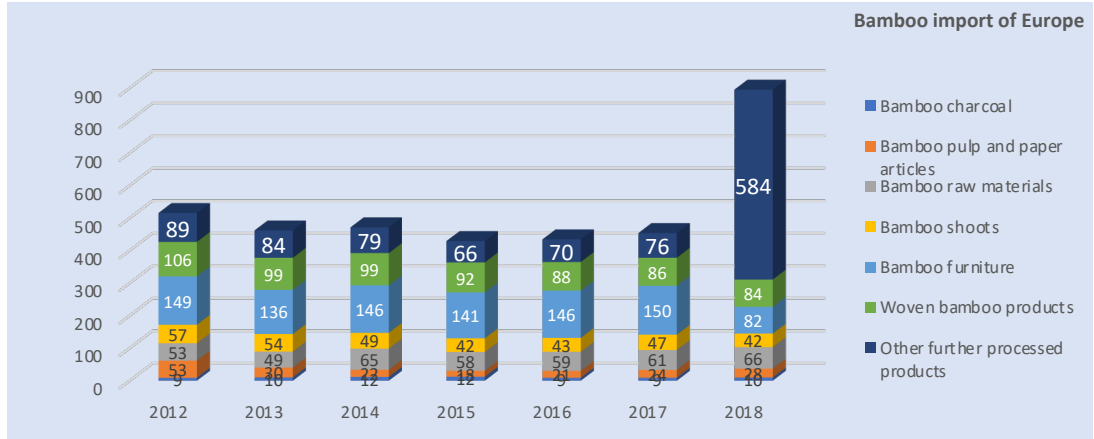

International trade of bamboo and rattan

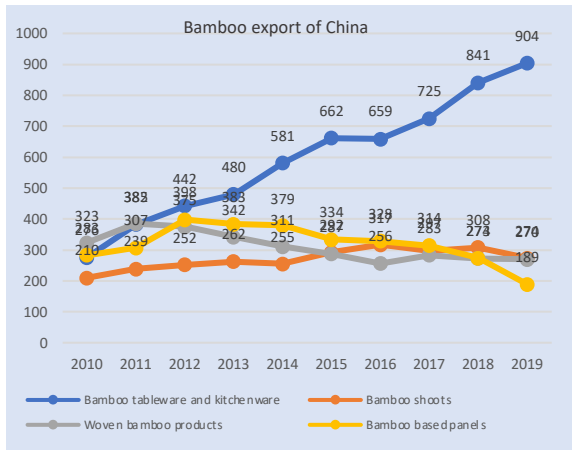

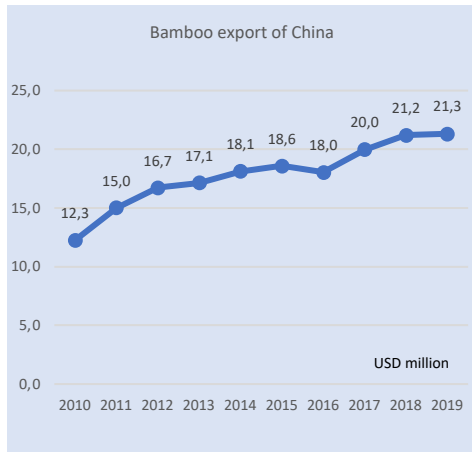

International trade of bamboo and rattan 2018

International trade of bamboo and rattan

Conclusions

- Bamboo and rattan are very important strategic resources for the sustainable development of society, economy and environment in their distribution areas;
- Classification of bamboo and rattan commodities helps to review, evaluate and monitor the international market between economic bodies, including scale, trend and flow;
- International cooperation/dialogues on how to improve HS subheadings and develop market access for bamboo and rattan commodities need to be strengthened among countries and organizations.
